Physics 105, Spring 2014
March 6 Midterm Exam Information for Lecture Sections 1 and 2

The Midterm exam will cover Chapters 5 through 8 in the text, except Sections 5.7 – 5.9 and Sections 7.9 - 7.10. Furthermore, nonholonomic constraints will not be on the exam.

The Lec. 1 exam will start at 8:10 AM. The Lec. 2 exam will start at 3:40 PM.

The exams for Lec. 1 and Lec. 2 will be different. However, we ask that students in Lec. 1 do not discuss their exam with anyone not enrolled in Lec. 1 until 5:00 PM. The exam at 8:10 will only be distributed to students enrolled in Lec. 1.

We will schedule extra office hours as the exam approaches.

Students are encouraged to prepare and bring one 8.5" by 11" sheet of paper with notes on the front and back.

No calculators or other electronic devices are allowed.

Please do not bring bluebooks or scrap paper. We will provide extra blank paper.

We have a one-time room change for the Lec. 2 exam. The exam will be in the Hearst Mining Building, Room 390. (Lec. 2 is the 3:30 PM – 5:00 PM class).
